

# SITARAM HEMBROM

Java Full Stack Developer | Java • Spring Boot • JPA/Hibernate • REST APIs • React.js  
Bengaluru, India • +91 7004941312 • [sitaram.hembrom123@gmail.com](mailto:sitaram.hembrom123@gmail.com)

## PROFESSIONAL SUMMARY

Software Engineer / Full Stack Developer with 4+ years of experience building scalable web and booking applications. Strong hands-on expertise in Java, Spring Boot, Spring MVC, JPA/Hibernate, and REST API design, paired with React.js frontend development and Node.js/Express backend experience. Skilled in JWT-based authentication, Spring Security with role-based access control, layered backend architecture (Controller-Service-Repository), database integration across MySQL and PostgreSQL, payment gateway integration, and LLM integration with Spring AI. Solid foundation in OOP, Collections, Exception Handling, and Multithreading, with a track record of migrating legacy applications.

## TECHNICAL SKILLS

| Databases          | PostgreSQL           | MySQL                |                             |           |                  |                    |                |
| Payments / APIs    | Razorpay             | REST API Integration |                             |           |                  |                    |                |
| Tools              | Git                  | GitHub               | Maven                       | Postman   |                  |                    |                |
| Architecture       | Layered Architecture | MVC                  | Component-Based Development | SPA       | API-First Design |                    |                |

## PROFESSIONAL EXPERIENCE

### Software Engineer / Software Developer — Orisys Infotech Pvt. Ltd.

Mar 2023 – Present

Bhubaneswar, India

Full-stack web application development, API integration, responsive frontend development, database integration, and migration of legacy applications.

#### Project: Orisnz-Fleet

Domain: Travel / Car Rental | Role: Software Developer | Team of 8 | React.js, Vite, Node.js, Express.js, PHP, MySQL, Razorpay

- Migrated a legacy PHP/MySQL car rental application toward a React.js (Vite) and Node.js/Express architecture.
- Built multi-step booking functionality covering vehicle search, selection, reservation details, and payment.
- Implemented dynamic pricing logic, including per-day rates, duration slabs, promotional pricing, and weekend surcharges.
- Integrated Razorpay for card, UPI, net banking, and wallet payments, including a “Pay Later” option.
- Implemented coupon functionality and previous-booking auto-fill.
- Contributed to the admin panel for vehicle, pricing, banner, and testimonial management.
- Ensured responsive UI across desktop, tablet, and mobile devices.

#### Project: Medicare — Hospital Appointment Management System with AI Health Assistant

Domain: Healthcare | Role: Full Stack Java Developer | Java 21, Spring Boot, Spring Data JPA, Hibernate, PostgreSQL, Spring Security, JWT, Spring AI, Ollama, React.js, Axios, Maven

- Developed Spring Boot REST APIs using a layered Controller-Service-Repository design with DTOs and validation.
- Implemented JWT authentication and role-based access (Patient, Doctor, Admin) using Spring Security and BCrypt.
- Built the appointment workflow (Booked to Completed/Cancelled) with availability and double-booking checks.
- Developed booking, confirmation, and cancellation notifications with unread counts and user preferences.
- Integrated an AI health assistant (Spring AI + Ollama/Llama 3.2) for intent detection, specialist suggestions matched to doctors, and emergency guidance.
- Built admin modules for doctors, departments, patients, and appointments, with a metrics dashboard.
- Built the React (Vite) frontend with React Router, Axios, and protected routes for all three user roles.

## EDUCATION

### Bachelor of Computer Application (BCA)

Mrs. KMPM Vocational College, Kolhan University
